## About Us

**We started with a small beginning, but we have grown into full-fledged professionals who excel in creating explainer videos over the years.**

Our services rely on quality and value for money. In this evolving digital era, we hope to deliver smart solutions to complex problems so that you can leave your competitors behind.

Moreover, we don't only focus on an online presence. We also augment your offline reality with sophisticated branding through our custom-made explainer videos specially designed by our super talented team.

## What We Believe In

At Video Jeeves, we believe that we can only provide positive results to our clients when we're strong internally. Our team comprises of individuals who are incredibly talented and only represent creativity and innovation. We keep hustling until we don't deliver the results that could maximize your success.

## What We Have To Offer!

Apart from a talented team, we have a lot of services to offer. Each of our services is designed to keep the fast-moving market in mind. Here are some of our services:

- 2D Animated Videos
- Whiteboard Videos
- Screen-Cast Videos
- 3D Animated Videos
- Motiongraphic Videos
- Stock Animated Videos

## Kind of Videos

### PROMOTIONAL

Make your video promos more exciting and attention grabbing for your audience with a perfect typography animation.

### SOCIAL

Social media videos are a unique way to promote and market your brand towards your audience. You can also increase the awareness regarding your products and services.

### GAMES

We employ advanced software and animations to create interactive props, characters, creatures, scripted events, lighting effects, and more that can be used in video games.

## Kind of Videos

### COMMERCIAL

We incorporate fun and interesting characters in the commercials to attract and engage viewers for a longer time and thus, communicating the message effectively.

### EDUCATIONAL

We incorporate animation into different subject concepts to make learning and training more interactive, engaging, fun, and motivational to better learning outcomes for the students.

### CUSTOMER TESTIMONIALS

People always prefer to visualize and hear instead of reading. We help our customers share their valuable reviews through our video services.

# How We Work

We excel in working smart and in a less time-consuming way.

## Concept and Script

One of our designers will take note of what you want. Your requirements and their ideas will help in shaping the script and giving a concept.

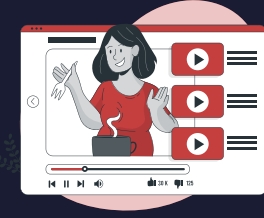

## Storyboard

Our next step will be creating a storyboard filled with pictures and illustrations in order. This will help in pre-visualizing.

## Animation

The storyboard designed in the earlier stage will be turned into an animation. Your script will come to life here!

## Lunch

Once we're done with all the steps, we will send the final video to you for final approval. If you want to make any changes, you can always let our team know!

The background of the image is a stylized, flat-design illustration of a city skyline at sunset. The sky is a gradient of orange and yellow, with silhouettes of various skyscrapers in darker shades of orange and brown. In the foreground, there is a body of water with several small sailboats. A large, dark blue circle is centered over the image, containing the text 'Case Studies' in white. The overall aesthetic is modern and professional.

# Case Studies

The background of the slide features a low-angle shot of the Iwo Jima Memorial, showing the iconic statue of soldiers raising the American flag on Mount Suribachi. The flag is waving in the upper left, and the statue's figures are in the lower right, set against a clear blue sky. The entire image is framed by dark blue diagonal borders on the left and right sides.

# American Battle Monuments Commission – ABMC

Enabling the sharing of Knowledge with Action  
with Detailed Explainer Animated Video.

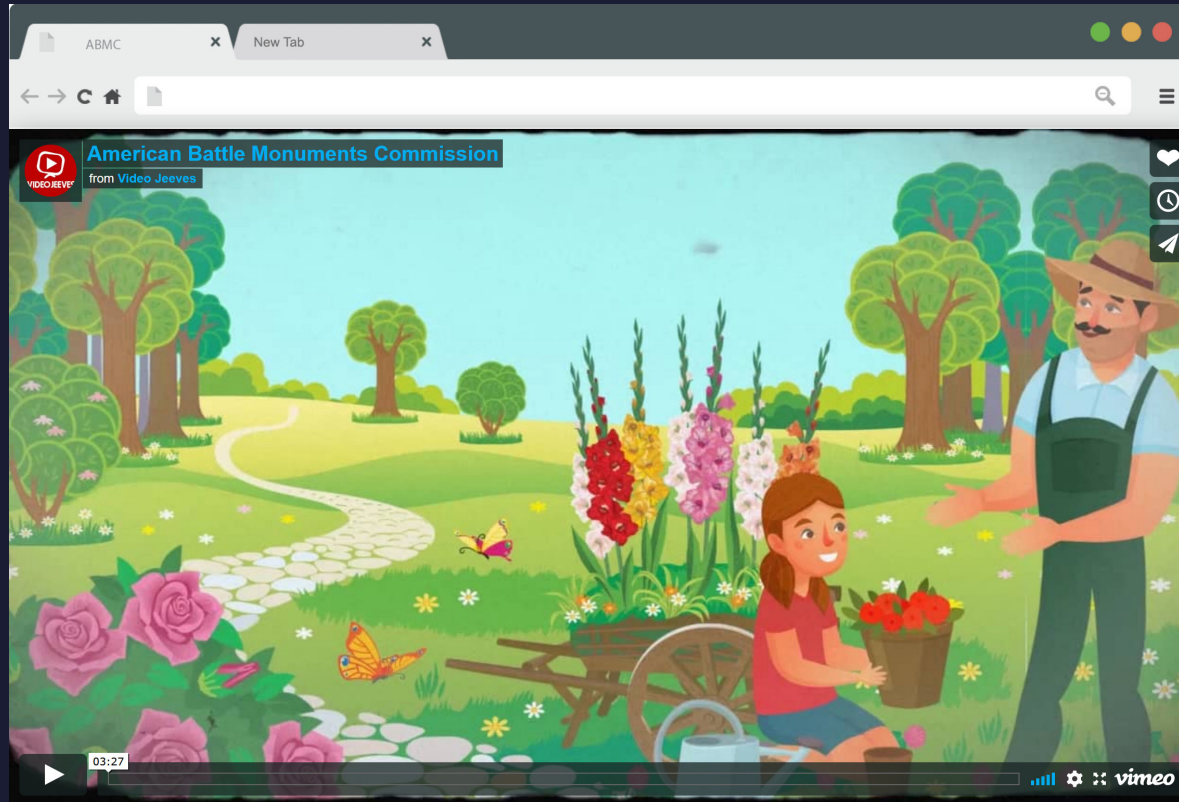

Providence of a Platform for the Generations of US Citizens.

## Project Overview

The American Battle Monuments Commission (ABMC) is an independent agency of the United States government and one of our prestigious US clients that administer, operate, and maintain permanent U.S. military cemeteries, memorials, and monuments both inside and outside the United States. In an effort to commemorate the service, achievements, and sacrifice of the members of the U.S. armed forces buried or memorialized at various sites worldwide, ABMC offers a platform and numerous facilities for the citizens inclusive of Artifact collections, education programs, family assistance, floral decoration at the War Veteran Cemeteries, Korean War Honor Roll certificates and various generation to generation knowledge and education transformation services.

We, at Video Jeeves, developed a comprehensive animated explainer video for our reputable client, American Battle Monuments Commission. The video was based on a girl named Nicolette. The sole purpose was to help people share knowledge of their family generations essential to the ABMC platforms. The video explained and showed the path of Nicolette in joining the gardening team at ABMC and working with her dad and granddad. Her passion for gardening, agriculture, and horticulture, then her degree from the university in these fields followed by her working in ABMC while providing platform for others were perfectly portrayed in our animated video. The video was made to provide an inspirational platform to others at ABMC.

# Hp Enterprise Printers

Assisting our clients in protecting their printers from intrusions to ensure the quality performance and printing of their prints

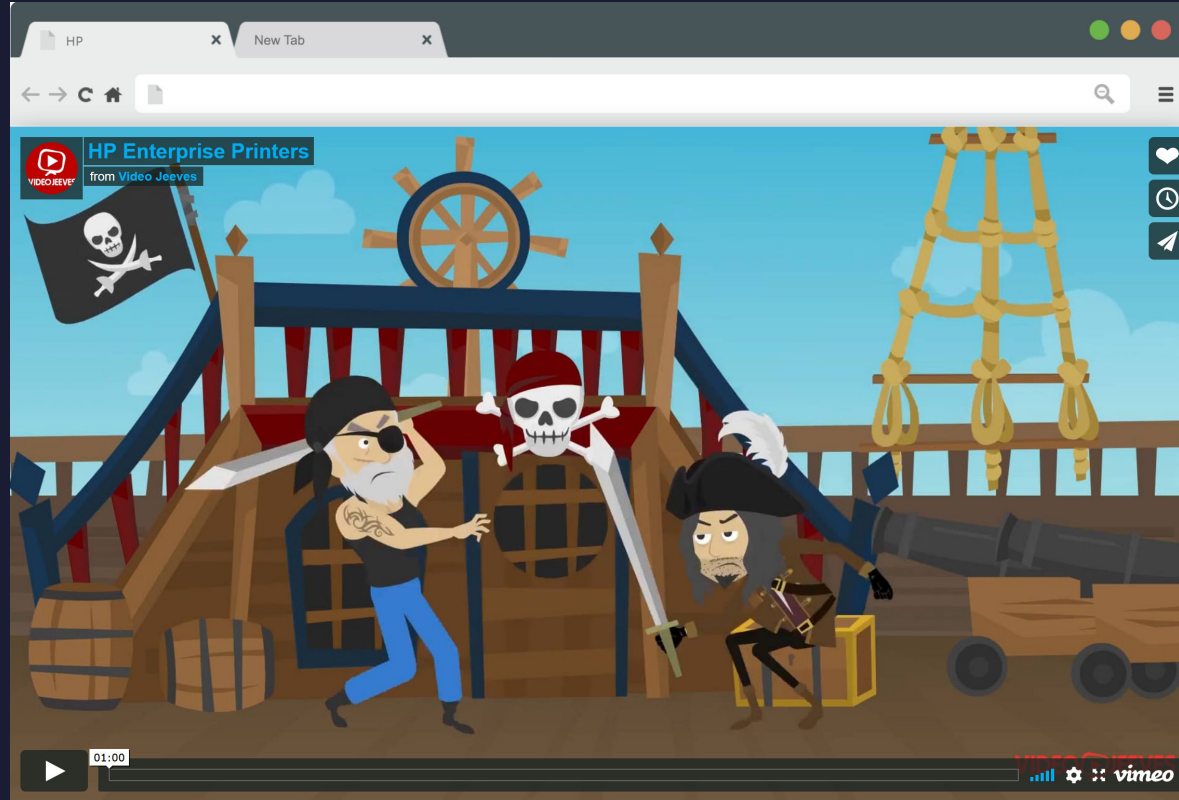

## Project Overview

Bringing out a new device in the market or launching it is not an easy task for any brand. As being an old name in the market, we not only bring new devices in the market but also sort out tell our audience that this device is smarter than the old one. It's hard to explain our audience how to use the new advancements we include in the upcoming devices. As they are not really aware of the technicalities and the facilitations a device can offer to them and make their work more convenient. However, we hired the Video Jeeves for an explainer video of our Hp Enterprise Printers. Not only they ensured to cover every detail but also kept an easy to understand language.

The main feature of our device was to let our customers fully understand the use of our intrusion feature which can help them in ensuring that their printer is not being used without their consent. We launched our product and used their explainer video in our marketing and promotional activities.

# Payoneer

**Payoneer Escrow – New Age Licensed  
Online Domain Buying Platform**

Helping Payonner Clients to Induct Domain Transactions Effectively and  
Safely through our Explainer Videos

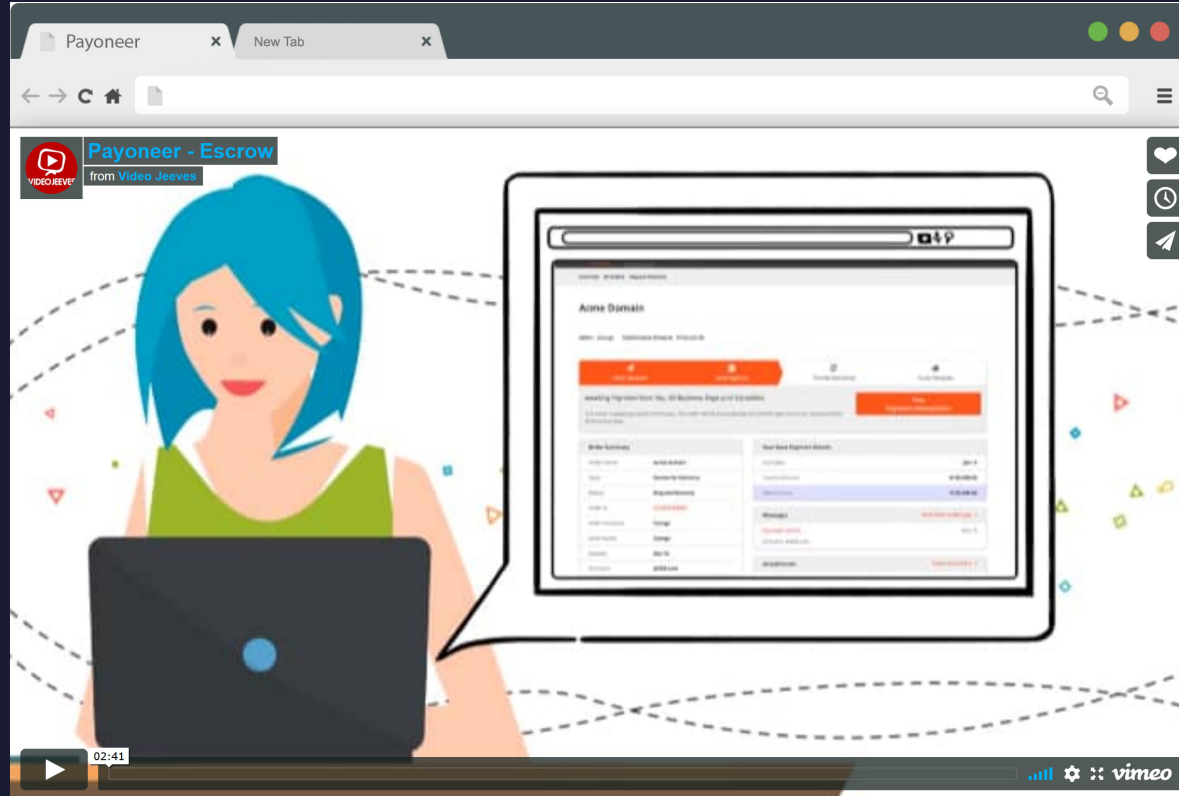

## Project Overview

Payoneer, our primary client, is a financial services company that provides online money transfer and digital payment services. Account holders can send and receive funds into their bank account, Payoneer e-wallet, or onto a re-loadable prepaid MasterCard debit card that can be used online or at point-of-sale. Payoneer offers multiple ways to get paid online by various international clientele and in the global marketplaces; quickly, securely and effectively at a low cost. When we were in the process of creating explainer videos and other digital solutions for Payoneer, their problem was that the buying and selling of various online domains was a risky process and the transformation, transactions, as well as the minimal domain purchase process, should be safe and sound.

Payoneer came up with Payoneer Escrow, a correct solution for the licensed online buyers, brokers, sellers and vendors to get cost-effective and secure solutions for domain purchasing and more. Through the creation of explainer videos and multiple digital solutions from Video Jeeves, Payoneer was able to explain to their clients about the security of their domain transaction process and reach clients in more than 200 countries.
